

Conscious Chair 3162

Wood and coffee shell waste mixed with recycled industrial plastic and FSC® certified wood

Conscious Chair designed in 1958 by the renowned Danish furniture designers and architects Børge Mogensen and Esben Klint. The chair is made of FSC® wood and Matek®, where an innovative technology allows us to recycle fibre-based waste materials with recycled plastic waste. It is the first time that a Børge Mogensen design has been relaunched in a different material than the original. The chair is available in three versions.

Wood Waste Grey

Coffee Waste Light

Coffee Waste Dark

Coffee Waste Green

Coffee Waste Black,
Beech

Coffee Waste Black,
Oak

Designed by

Mater Sustainability Factsheet

Matek™

Matek®

In alliance with large corporations, Mater has invented a patented technology that recycles their fibre and plastic waste. This resulting in five new unique materials that we've named Matek®.

Read more about Matek [here](#)

FSC® Certified wood

From the very beginning, we have used FSC-certified wood for all wooden products in our collection. In an FSC® certified forest, no more trees than the forest can reproduce are felled, so the exploitation of nature is avoided.

Find our FSC® Certificate [here](#)

CO₂ Footprint

At Mater, we believe in the importance of transparency. By doing Life Cycle Assessments (LCA) on our furniture, we can analyse the total climate emission for each of our product's lifespan.

Read more about how we measure the CO₂ footprint [here](#)

Mater Take-Back

We unhesitatingly offer to take all our furniture made from Matek® back at the end of its life to recycle it into new furniture.

Read more about how Mater Take-Back works [here](#)

Repair for long lasting

Good products, are made to be used. To give the products the longest possible life, we want to make it easy for you to repair them yourself.
