Pedestal is expanding its universe. We are happy to add a new member to the family. Say hello to our best-seller Moon Rollin' in Chrome.

"Pedestal strives to embrace the tendencies of having a flexible and contemporary interior design. We are used to moving around sofas, tables, etc because of a fixed TV. With Moon Rollin' the tables have turned. Why don't we move the TV instead?"

With the new exclusive Chrome edition, Pedestal adds a simple, functional, and contemporary piece of furniture, ready for every home. Let's get Rollin'!"

Moon Rollin' is a Pedestal bestseller. It's a functional TV stand that features soft, curved lines and a playful design language that is distinctive to the Pipe Series. These soft yet playful curves add a significant contrast to the sturdy steel construction, which ensures the stability and durability of the stand.
