INTRODUCING NEW MEMBERS TO THE LINEAR STEEL SERIES

The Linear Steel Series by Copenhagen-based designer Thomas Bentzen brings the ideas of functionality and longevity into the outdoors, joined by understated details for a refined expression. With its clean lines and timeless yet contemporary sentiments, the Linear Steel Series brings new perspectives to outdoor furniture while enhancing its surroundings

Now, three new members are added to the series: The Linear Steel Armchair, Side Chair & Café Table.

The Linear Steel Armchair & Side Chair are defined by their contrasts—the clean lines of the seat and front legs in a complementing opposition to the ergonomical, smoothly curved backrest for an enveloping comfort whilst seated. The small spacing in the seat makes for easy outflow of water as well as a light visual expression.

The Linear Steel Café Table features on elegantly shaped tabletop that is either round or square, resting upon a foot that acts elegantly as a subtle plateau.

THOMAS BENTZEN ON THE DESIGN:

“The Linear Steel Series came from the idea of presenting durable materials in a sophisticated expression for outdoor use. Defined by its elegant lines for a contemporary yet timeless aesthetic alongside the detail of its half-circular intersecting legs, the Linear Steel Series translates the values of elegance, longevity and functionality into modern outdoor furniture.”
