MENU launches for indoor and outdoor gardens.

Plants and green spaces enhance not only our homes, but also our lives. To that end, MENU has created a collection of beautiful and useful objects for green-fingered gardeners.

Whether tending to houseplants or cultivating a green oasis from scratch, the collection's vases, planters, watering can, watering sticks and plant mister have been designed to provide maximum function with minimum fuss.

Shaped from natural materials, many of which have been finished by hand, each item has a unique look and feel. Reactive glazes add colour and texture. Wooden details and warmth to cool metal. And hand-etched patterns add tactility. A series of torch-inspired oil lanterns add to the ambience outdoors with their rustic appearance and wide and warming flame.

**The Daiza Planter. A modern take on a familiar form.**

Centred around the belief that everyday objects should add to the ambience of a space, the Daiza Planter elevates both plants and rooms. Set on powder-coated metal stand, the voluminous pot channels the familiar feel of ancient vessels. Shaped from earthenware, it is finished with a glossy, reactive glaze for understated colour and texture. Subtle differences in form, surface finish and firing temperature during the handcrafting process make each container entirely unique. Available in four different sizes of varying heights and made for indoor use, the Daiza Planter can be used outside when the corresponding care instructions are followed.

## A Sense of Community

MENU has always been fascinated by the way in which individuals and spaces can be united through great design. In our pursuit to craft furniture, lighting and interior accessories shaped by purposeful details, high-quality materials and human needs, we create strong and lasting relations between designers, manufacturers and customers. The sense of community that results from this union of like-minded individuals fosters a deeper sense of belonging – and products that stand the test of time, inviting human connection, inspiration and experimentation to push the boundaries of modern design. We truly believe that when we work collectively, we achieve more than we do individually: the sum of our work and of our connections is always greater than its parts, and our softly minimal designs and collaborative spirit help to join the dots between the home, the workplace and the service industry, redefining how we use space and, ultimately, how we connect to those around us.
